Make sure your families are registered with Schoolbelles

Please continue to remind all your families to register with Schoolbelles, so they can be the first to know about sales and important information regarding retail store locations. This is an important part of the uniform process, and it makes your job much easier, if we can communicate directly with the parents. It also leaves you more time to focus on what you do best, EDUCATION!

You can use the below link on the registration page of your website or print this link (<http://www.schoolbelles.com/register>) for a take home folder!
